About This Game

*** As seen on TV on BBC One Sunday Politics ***

Help Maybot run, jump, slide, and shoot her way to a strong & stable dystopia in this hilarious political infinite runner.

A Game for the Many

Play the villain, Maybot. Run through randomly generated levels collecting power-ups, taxes, and votes. Jump over crazy enemies from angry farmers to missing nuclear bombs to foxes on horseback blowing bugles. Slide under tractors and ripaws to avoid death and collect more goodies. Build up your naughtiness to unleash your ultimate form and shoot down massive bosses.

Spend your votes in the shop on upgrades and new playable characters, each with their own perk. Rise to the challenge and unlock achievements and make history on the Steam leader-board. You are the Maybot now RUN!

Quotes from some Reviewers, Youtubers, & Maybot Run Players:

“On its surface it’s political commentary is blatant and hilariously so, but there’s a surprising amount of depth to its cuts.” – Astrid Johnson, Indie Haven

“The gameplay is extremely original for an endless runner. The soundtrack is pretty righteous as well.” – Dayton Does Gaming

“A tongue in cheek game that you can get a good laugh at” – Rip Cassidy

“The funniest game I’ve played since Plug and Play” – Mooshi Gamer

“Maybot Run has an awesome soundtrack” – Tesla 🎮🎮🎮 Gaming

The Story

In 2016 Maybot landed in the UK and quickly took power as an unelected dictator. Help her and her cronies run, jump, slide, and shoot their way to a stronger, and more stable leadership. Wreak havoc on the poor, help the elite, and be as naughty as possible in those wheat fields. With your help Maybot can defeat the coalition of chaos; morality and hope, bringing back the wealth to the elite few and condemning the many to ordinary working poverty. There are girl's jobs and boy's jobs but this is definitely a bot's job.

This game is based on true events that may or may not have happened by people who may or may not be real.

. I don't believe this is a survival horror game. It was more of a help your friend get out of a dark random mine.. I'm only on chapter 2 out of I think 7 or 8 chapters depending on choices made, but so far I would describe it as very light and sweet; the artwork, storyline, and music. ♥. An unusual game that is refreshing. Too few game designers use creativity in their design. It's always cloning each other's ideas. But these guys have come up with an original game idea and successfully delivered a good design too.

I have nothing bad to say about this game aside from no replayability. It's tough to beat the first time you play, so it might take you a while to finish and that is good since there is no point of playing it a second time. Oh, and the game takes 24 megs on your HD, that's a really great thing especially if you have limited bandwidth.

Love the simple interface, it is clean and direct, you don't have thirty sub-menus or other inconveniences like that.

If you can get it at 5\$ or less, well worth it if you are looking for something new and small.. You play this game for 5 minutes and then you look at the clock and it's actually been 3 weeks. It's still impossible to beat though. One of my childhood games, love the village building aspect on this game. However there are pros and cons:

Pros:

1. Vibrant visuals
2. Simple mechanics (as long as you know the tutorials)
3. Challenging (if you don't play the Easiest difficulty)

Cons:

1. I can only play as Vikings.
2. I've always wanted to play as Saracens. I'VE ALWAYS WANTED TO PLAY AS SARACENS.
3. Only few free play sessions.. it was pretty fun and way too easy until level 7. then it was all of a sudden way too hard and annoying. The game is a bit of an improvement over the last one. Its meant to be experinced, its not gonna be your run of the mill 'Run through and get spooed' kind of game. There is a story element to it; and yes there are some cheesy jumpscars in there. But there are also some really good really well thought out ones too. Give it a shot if you haven't already.. A terrible game, basically a glorified cookie clicker, never been disappointed spending 47 pence before but there's a first for everything. No more than 10 minutes of gameplay, excluding the videos of Putin which will invariably crash the game. Avoid like the plague. This kind of game is why Steam needs to have stronger filtering and reviewing before games go live. this is very good buy the budndle. The game is not what I would call great, but it is fun. It's very easy to get into it, and spend way too much time that you probably should have been doing something else. But that's why we have entertaining toys. I agree with some of the other commenters that the ability to use the controllers would be highly desirable. As to not being able to start the game in vr; I start the game first, then log into Steam. Starts every time. By the way, I run this on a Vive unit. For the voyuers that would turn this into a hentai game; what's offered is fun and not offensive; although the developer could easily add a string bikini into the swimsuit offering. I'm looking forward to whatever improvements get added to this in the future (soon hopefully).

I have run this app for a year now. It always ran great. Now since the upgrade, the eyesight reticule disappeared, and without it, you cannot activate the start button. Hey developer; how about a little help?. I enjoyed the game. It was rather short, but had some really beautiful moments.
